

Instructions

Includes: 36 dominoes
2-4 players

Basic Game

Ages 3+

Object: To be the first to play all of your dominoes by matching bugs.

Set Up: Turn dominoes dot side up and bug side down and scramble them. Each player takes 9 dominoes and turns them bug side up. In a 2- or 3-person game, there will be some dominoes left over. Put those aside.

They will not be needed. Place the web game board in the center of the table so all players can reach it. The youngest player goes first and play continues clockwise.

How to Play: To start, player 1 matches a bug domino to the edge of the web game board. For example, player 1 might place a bee domino at the bee edge. The next player could play another edge domino or could match a bug to the bug on the other side of the bee. Each player plays 1 domino per turn. If a player cannot play a domino in the game or on an edge, the player misses a turn.

Big Spiders: A big spider can be played on any bug, and players may match any bug to a big spider. Big spiders cannot be played as a first edge piece. If a player plays a big spider, that player goes again.

Game End: The first player to play all dominoes wins! To increase the length of play in a 2- or 3-person game, divide up all 36 dominoes among the players rather than dealing 9 to each. Game play is the same as the basic game.

Challenge Game

Ages 5+

Set Up: Turn dominoes dot side up and bug side down and scramble them. Each player takes 3 dominoes and holds them in her hand. Place the remaining dominoes in a draw pile where everyone can reach them. Place the web game board in the center of the table. The youngest player goes first and play continues clockwise.

How to Play: Each player plays 1 domino per turn and then picks another domino from the draw pile. As in the basic game, the first player plays a domino on a start edge and play continues either by playing a domino on a start edge or matching a bug to another domino. If a player cannot play a domino she misses a turn.

Big Spiders: A big spider can be played on any bug. Big spiders cannot be played as a first edge piece. If a player plays a big spider, that player goes again, however, that big spider domino ends that bug line. No more dominoes may be played on that big spider domino. After player goes again, player picks up 1 domino only from the draw pile. Players will have only 2 dominoes in their hands after playing a big spider.

Game End: The first player to play all dominoes wins! If no player can play a domino, all players should put all dominoes from their hand back into the draw pile. Scramble those dominoes and have each player take the same number of dominoes she put back into the draw pile. Resume play. If the draw pile is gone and players still hold dominoes in their hands, the game is a tie.

Super Challenge Game

Ages 5+

For an even more challenging game, flip the dominoes over and play dot side up. In this version, players can play any domino to start. Play as if playing the basic game but matching dots instead of bugs.
