

Dodge the Dragon Card Game

Instructions

Basic Game

Ages 4+
3-6 players

Object: To discard all of your cards and not get left holding the dragon.

Set Up: Shuffle the cards and deal all of the cards face down. Some players may have more cards than others. That's OK. Players sort their cards and place any pairs face down on the table. If a player has three cards that are the same, he keeps one card in his hand and places the pair face down on the table. If a player has four matching cards (2 pairs) he can put all four down on the table.

How to Play: Player to the left of the dealer goes first. He makes a fan out of his cards and holds them, face down, to the player on his left. That player chooses one card from the fan without seeing it. If the card makes a pair with a card he has in his hand, he can put the new pair face down on the table. If not, he keeps the card. Now he fans out his cards for the player sitting to his left. Play continues in a circle, with players choosing cards and putting down pairs. Once a player has played all of his cards, he is safe.

Game End: The game is over when everyone has played all of their cards. The player left holding the dragon loses.

Kingdom Concentration: For a fun play-by-yourself game, remove the dragon, shuffle the cards, and randomly lay all 48 cards face down on a table or smooth surface. Turn over 2 cards – if they match, take the cards. If not, turn them back over in the same place and try again. Continue until you have paired all the cards. This game can also be played with 2 players taking turns.
